### Everyday Polymers - Lesson - TeachEngineering

Polymers are a vital part of our everyday lives and nearly all consumer products have a plastic component of some variation. Students explore the basic characteristics of polymers through the introduction of two polymer categories: thermoplastics and thermosets. During teacher demos, students observe the unique behaviors of thermoplastics. The fundamentals of thermoset polymers are discussed ...

Polymers and properties of polymers are a chunky topic in the GCSE chemistry syllabus. You have to know about the uses of polymers as well as their chemical structures. From monomers to polymers in the process of polymerisation is where this topic usually begins, before other aspects such as thermosoftening and thermosetting polymers are covered.
