That is the main result of the 2018 Globalization Report, which analyzes globalization's effect on growth in a total of 42 countries - which collectively account for over 90% of global economic output. The analysis for all highly developed economies and the most important emerging countries determines the extent to which they globalized

2018 Globalization Report - Bertelsmann Stiftung

It expanded banking services, giving women a safer way to save, receive remittances and make payments. More subtly, financial globalization forced governments to keep inflation low -- if they don't, investors quickly take their money abroad. Women have been big beneficiaries of this, as it is they who do the shopping for their families.

The Pros And Cons Of Globalization

Globalization, or globalisation (Commonwealth English; see spelling differences), is the process of interaction and integration among people, companies, and governments worldwide. Globalization has accelerated since the 18th century due to advances in transportation and communication technology. This increase in global interactions has caused a growth in international trade and the exchange of ...

Read Book The Globalized Woman Reports From A Future Of Inequality

The COVID-19 pandemic has quickly transformed from a global health crisis into a financial crisis, particularly for low-income female workers in global supply chains. However, companies can effectively deploy preventative measures to support workers and workplaces to protect their health and strengthen their financial resilience.
